Work Study Programme

Work Study Programme (WSP) aims at allowing Pre-Final Year student to gain practical working experience in 12 months internship*. The programme normally commences in May/June each year. The company will provide a structured training programme, with proper supervision, by which the student can acquire a wide range of skills and be well exposed to practical working environment.

The Work Study Programme aims at:

- Allowing students to gain substantial industrial working experience during their academic training.
- Enabling student to build up human relation skills and appreciate how academic knowledge can be apply to the real world.
- Preparing students to become a better professional engineer after graduation, which will eventually benefit their future employers and the society as a whole.

Important Notes for students on Work Study Programme:

- To observe and demonstrate good work ethnic (e.g. punctuality, professionalism, accountability and etc.)
- To complete the Work Study Programme. No withdrawal from the programme will be allowed without prior approval from the department
- Student are required to complete and submit a written report (template can be download from pip website: https://pip.cintec.cuhk.edu.hk/web/) within one month after the completion of the training.
- A 1 credit course ENGG1820A will be added to the enrolled student automatically in their returning semester. A suitable grade will be given depending on how well the student has successfully completed the whole programme. The department reserves the right to make the final decision.
